

LONG POINT BIRD OBSERVATORY

VOLUNTEER FIELD BIOLOGIST – APPLICATION

If you are interested in applying for an assistantship at Long Point Bird Observatory, please complete the following form (use addition sheets if necessary), attach resume and two references, and email to lpbo@birdscanada.org

Name:		Citizenship:	
Address:			
City:		Province/State:	
Postal or Zip Code:		Country:	
Phone:		Email:	
Present Occupation and Employer:			
Emergency Contact Name:		Phone No.:	
Education (highest degree completed or current status):			
Previous work and/or volunteer experience (attach resume)			
Application for: ___ Tree Swallows, ___ Breeding Bird Census, ___ Spring Migration ___ Fall Migration			
I can identify a) <25%___ b) 26-50% ___ c) 51-75%___ d) >75%___ of all of the species of birds which routinely occur in eastern North America (check one).			
Ornithological Experience:			
Banding experience:			
Membership in professional organizations:			
Other field experience?			
Do you have a valid driver's licence?		Province/State/Country:	

Do you intend to bring a vehicle?

Do you have small boat experience, and if so, what?

Computer skills (e.g., Bandit, Band Manager, Excel, Word):

Special relevant skills (carpentry, bird-skinning, etc.):

Do you have life saving, CPR, or first-aid training?

Are you physically fit? Are you emotionally fit?

Do you have good eyesight?

Do you have good hand/eye coordination?

Are you prepared to share in daily data entry, cooking and routine maintenance chores?

For what period are you available (be specific)?

Alternative periods (be specific)?

References (three people who know your work ethic and job skills)(include email and phone):

Are you willing and able to live in a remote location, in rustic conditions with no phone or email access for weeks at a time?

Do you have any medical conditions?

Are you prepared to share a bedroom with other volunteers?

Are you prepared to be relocated between field stations on short notice if required?

Where did you find out about LPBO volunteer positions?

Please describe why you think you will be helpful to LPBO and how you think that your work will benefit you.

If you can't take isolation, communal living, long hours, physical exertion, bugs, the heat, the cold, irregular supplies of fresh food, or primitive working conditions, then this may not be the right job for you. If you thrive exciting and challenging field conditions and have a passion for birds, wild storms, pristine habitats, some of the best birding in North America, snakes, frogs, and butterflies, we'd love to hear from you.

IMPORTANT! – Would you like us to forward your application to other members of the Canadian Migration Monitoring Network if space is not available at LPBO?
